CASE STUDIES: THE VALUE OF HAVING A DISABILITY RECRUITMENT SOLUTION

Enhanced Outreach for Federal Contractor

Needing to ensure compliance under Section 503 of the Rehabilitation Act, our client turned to us for help. We were able to launch a targeted visibility campaign via social media and features in GettingHired’s job seeker resources to increase their applicant numbers to more than 400 per month.

Financial Services Firm Develops Inclusive Branding

Hoping to add value through a more diverse workforce, our client had a small geographical footprint and therefore struggled to attract suitable candidates. We were able to support the client through best practice consultation on presenting their employer brand that has on average led to a 171 percent upturn in their number of applicants with disabilities each year.

Aerospace Contractor Boosts Engagement

Our challenge was to help better position the client to fill the more than 2,000 roles they had open at any time. We were able to achieve this by connecting them with the most active and highly motivated job seekers across the country at multiple careers fairs, as well as posting all of their open positions on GettingHired.com.

These are a few examples of our clients receiving added value when they work with GettingHired. Reach out to our expert team today to find out how we can bring that value to your business too!
